**Unprecedented times!**

How many times have you read, heard, or said that phrase in the last few months? It has found pertinence in ways HOSA-Future Health Professionals has never experienced before and is testing the very fabric of our world. What we found – it is not the uncertainty but, more so, what is next?

With outstanding partners supporting our goals, high profile health industry leaders serving as role-models to HOSA’s future health professionals and extremely committed HOSA Advisors, the 40th Annual International Leadership Conference was virtual but extremely successful proving tenacity, leadership, teamwork, and the ability to learn new technology skills are necessities in the “new normal” toolkit as we launch the 2020-2021 membership year.

Now, more than ever, the world understands the value of a compassionate and skilled healthcare workforce. It is HOSA’s responsibility to provide the pipeline with a qualified workforce and ensure that we can continue to make a difference.

Whether health science classes and HOSA chapters are “virtual” or live, HOSA will provide “On-Demand Learning Opportunities” for classroom curriculum and competition support. HOSA is proud to be integral to Health Science Education to introduce HOSA members to all aspects and career pathways of an ever adapting and expanding health industry. Our new mini lessons are complimentary and can be found on HOSA’s website. You will also want to participate in HOSA’s Webinar Series to be launched in the Fall of 2020.

This year will bring challenges and extraordinary new opportunities to excel in the classroom, curriculum, and HOSA chapter. The HOSA, Inc. Board of Directors, Executive Council, HOSA partners, and Headquarters Staff are ready to support the 2020-2021 membership year. Through your local chapter membership and participation this year, we are prepared to provide more services for members of HOSA-Future Health Professionals! We are committed to empowering HOSA-Future Health Professionals to become leaders in the global health community!

MEET YOUR 2020-2021 EXECUTIVE COUNCIL

Your President, Jake Kelley, and the Executive Council are eager to lead HOSA-Future Health Professionals and help our members Unlock their Potential.
The 2020-2022 HOSA Service Project, selected by the 2020 Voting Delegates, is Be the Match. HOSA will work with Be the Match for the next two years in raising funds and awareness for the National Marrow Donor Program (NMDP). We are proud to be working with Be The Match to help save lives through transplant for thousands of people diagnosed with life-threatening blood cancers like leukemia and lymphoma.

Be The Match® is a global leader in bone marrow transplantation. We conduct research to improve transplant outcomes provide support and resources for patients, and partner with a global network.

For more information on state and recognition, please visit hosa.org/serviceproject.

2020-2021 HOSA Theme - “Unlock Your Potential”

Mind power directs one’s thoughts towards a desired outcome. What sets leaders apart from others is how the power of the mind is applied! Tightly secured behind HOSA’s metaphorical vault doors lies the capability to succeed indefinitely. We’ve handcrafted an identity for 2021’s ILC theme to shed light on what hides within the minds of HOSA’s members.

In this design, typography extends outward into an ocean representing the vast human experience. The bright lights illuminate the possibilities that lie behind what closes us off from our achievements — what limits our capacity for success. With the power of one’s mind as the key and one’s leadership skills and work ethic as the force that makes it turn to push past all barriers, and
In order to use HOSA's Affiliation System, you must have your chapter’s charter number and password. If you are a new chapter or you do not know your chapter’s charter number or password, contact your state advisor or HOSA Headquarters.

From the main menu, be sure to review the affiliation instructions especially if you are unfamiliar with the online affiliation system. Click Complete the Affiliation Application to begin the chapter affiliation process. Ensure all chapter information is correct including the billing and demographic information. For returning HOSA members, you can re-affiliate these members without re-entering their information. For all new members, please enter the member's name, demographic, and contact information.

Choose to Be the Difference
Choose Osteopathic Medicine!

A Distinctive Form of Medicine
Emphasizing a whole person approach to care, doctors of osteopathic medicine (DOs) are trained to promote the body's natural tendency toward self-healing and health. DOs listen and partner closely with their patients to achieve high levels of wellness and disease prevention.

DOs practice the full scope of medicine in all medical specialties. They receive the same medical training as other physicians PLUS osteopathic manipulative treatment (OMT), a hands-on method used to diagnose and treat illness and injury.

Established and Progressive
Founded in 1874 as an alternative to what was considered often harmful medical practices at the time, the first osteopathic medical school readily accepted female students and treated them as academic equals.

With a long history of gender inclusion, primary care training and serving rural and underserved populations, DOs are uniquely positioned to address the nation's healthcare needs.

Fastest Growing US Medical Field
Osteopathic medicine is the fastest growing medical field in the US.* More than 25% of the nation's medical students are training to become DOs, more than 30,000 in total.

High Residency Placement Rates
Osteopathic medical students enjoy a high residency match and placement rate to the specialty of their choice. The 2020 residency placement rate for osteopathic medical students was 99.29%!

*US Bureau of Health Professions
ABOUT PODIATRIC MEDICINE
A podiatrist is a Doctor of Podiatric Medicine (DPM), known also as a podiatric physician or surgeon, qualified by their education and training to diagnose and treat conditions affecting the foot, ankle and related structures of the leg.

Podiatric physicians can specialize in a variety of areas such as surgery, orthopedics, or public health. Besides these certified specialties, podiatrists may practice a subspecialty such as sports medicine, pediatrics, dermatology, radiology, geriatrics, or diabetic foot care.

In the US, there are three types of medical schools... the first two I know you can name - MD and DO. But, did you know that the third type of medical school is for DPMs... Doctors of Podiatric Medicine!

WHILE IN HIGH SCHOOL:
Do you like to solve challenging problems? High School students who enjoy STEM subjects and have a natural curiosity should look at careers in podiatric medicine.

WHILE IN COLLEGE:
College students should seek to take courses in Life Sciences. Experiences outside of the classroom are important, too. Work and volunteer experiences will help you prepare!

NINE PODIATRIC MEDICAL COLLEGES:
Students with an undergraduate degree enter the 4-year curriculum at one of the 9 US colleges of podiatric medicine. The DPM degree includes 2 years of classroom and lab work followed by 2 years of clinical education and patient care.

RESIDENCY:
After completing the 4-year curriculum required by podiatric medical schools, a new podiatric physician is required to participate in a 3-year medical and surgical residency.

MEET CURRENT STUDENTS:
"I chose Podiatry after spending hundreds of hours shadowing and working in a research lab. There were many specialties I enjoyed but podiatry encompassed everything I loved into one. With podiatry I was able to perform surgery, work with children and the elderly, as well as athletes. From dermatology of the foot, to sports medicine, diabetic care, trauma, and geriatrics the opportunities are endless."

Morgan MacLean, Kent State University College of Podiatric Medicine, Class of 2021

American University of Antigua (AUA) College of Medicine is one of the most innovative and recognized medical schools in the Caribbean. With key accreditations required for medical licensure throughout the United States, India, Canada, and the United Kingdom, AUA plays a pivotal role in solving the world’s forecasted physician shortage. Our graduates are in high demand and have been placed in the world’s most prestigious hospitals.

AUA is proud to offer more than 20 different scholarships. They include cultural, academic, and service awards. Several are offered automatically to qualified students once they’re accepted to AUA and do not require a separate application.

The dream of becoming a doctor becomes reality at AUA College of Medicine!

A convenient, flexible, cost-effective, and reliable choice for your continuing education.

Musculoskeletal & Body Systems

On Demand Professional Development

Convenient
Your MANIKEN® model, clay, tools, and supplies are shipped directly to you. Add in your work space, internet connection, and device with an internet browser, then you have all you need to complete your ANATOMY IN CLAY® On Demand Professional Development.

Flexible
"On Demand" learning enables you to master topics that are relevant to you at a time that works for your busy schedule. You have thirty days of endless viewing to take this course, whether you want to binge for two days straight, or take it an hour at a time.

Cost-effective
The convenience and flexibility of ANATOMY IN CLAY® On Demand Professional Development courses eliminate some of the biggest (and hidden) expenses of continuing education, such as: substitute teacher, travel, food, accommodations and time. Oh, and did we mention that you get to keep EVERYTHING you receive in your shipment including your MANIKEN® model?! The materials and course are valued at over $800!

Reliable
No need to cancel due to weather, illness or even a global pandemic (looking at you here, coronavirus). Your ANATOMY IN CLAY® On Demand Professional Development will be here for you when you’re ready.

What You’ll Learn
A course dedicated to the comprehensive overview of teaching the human body using the MANIKEN® Student 2 Model.

Always Up-to-Date: Never be stuck using outdated curriculum resources with new or updated content for teachers added each month

More Student 1-1 Time: Pre-built lessons, worksheets, and other resources give teachers more time to focus on their students

Easy to Use: Any teacher can implement HealthCenter21 quickly and effectively, even if they’re not tech-savvy

24/7 Access: Available for teachers and students anytime from any internet enabled device including phones, no software or IT help required

Certify Students: Our curriculum aligns to many certification exams (NHA, NOCTI, NCHSE, etc.) with a proven track record of improving pass rates

The AES Advantage

Why over 3,000 health science teachers choose HealthCenter21 to teach 100,000+ students each year

For my Principles of Health Science class, HealthCenter21 has just about everything I need for the entire year. Over the past 24 years at Deakey HSHP, I have not found a textbook that will meet my needs for the course. HealthCenter21 meets all my needs for Principles of Health Science!
Regina Jackson, Deakey High School for Health Professions (TX)

This is going to facilitate and make your teachers’ lives easier. I got this resource to help teachers be better teachers.
Dr. Miguel Benavente, School District of Palm Beach County (FL)
HealthCenter21 - What’s Included?

- **650+ hours** of curriculum content & resources covering:
  - *Health Science Foundations*  
  - *Medical Assisting*  
  - *EKG & Phlebotomy*  
  - *Nursing Assistant*  
  - *Patient Care Technician*  
  - *EMT & EMR*

- Complete toolbox of teacher and student resources to facilitate blended learning and differentiated instruction
  - *Interactive Digital Lessons*
  - *Worksheets & Study Guides*
  - *Daily Study Games*
  - *Lesson Plans*
  - *Activity & Performance Reporting*
  - *PowerPoint Presentations*
  - *Skills Checklists*
  - *Project Instructions & Rubrics*
  - *Lesson Transcripts*
  - *Real Time Grading & Feedback*

- Support and training for teachers via webinars, live chat, phone, and online learning center

pharmacy.auburn.edu/apply

Highly-qualified candidates to the Harrison School of Pharmacy have the opportunity to apply to the Early Assurance Program. Incoming and current undergraduate students at Auburn University and the University of South Alabama, along with other approved colleges and universities, can receive conditional admission to the Harrison School of Pharmacy.

Criteria for High School Seniors:
- Have a minimum GPA of 3.5
- Have minimum ACT Composite and STEM scores of 26 (or comparable SAT scores - minimum 1240 and a minimum math of 620)

Upon being selected for the program, a seat will be held in a future class. Additionally, by maintaining the standards set forth in the program, those accepted will not be required to take the Pharmacy College Admission Test (PCAT) prior to admission.

Start Your Application Today
To apply, visit: pharmdirect.liaisoncas.com

"The Early Assurance Program allowed me to complete many of the steps required for full acceptance and concentrate fully on my undergrad prerequisite courses. It is a relief to know when I will begin pharmacy school and an honor to be conditionally accepted to Harrison School of Pharmacy."

Bailey Deas
Birmingham, Alabama
Imagine a world where every patient diagnosed with a blood cancer or blood disease finds their cure.

As the global leader in bone marrow transplantation, Be The Match® provides patients with a second chance at life. We connect the world’s largest registry of donors with patients who are their genetic match.

But thousands each year are still searching for their life-saving match. They depend on Be The Match and partners like HOSA to overcome the odds.

The fact is some ethnic groups are severely underrepresented on the Registry. Less than half of patients of Asian or Hispanic/Latinx descent find their donor match. And only one in four Black or African American patients find theirs.

We can solve this health inequity. Every $100 raised adds one new donor—like Lauren—to the registry and brings us closer to closing the gap.

We are thrilled to partner with HOSA for the next two years to recruit more donors to the registry, raise critical funds, and deliver more cures for more patients. Together we can make a life-saving difference.

Learn more at BeTheMatch.org/HOSA
Located in Nashville, Tennessee, Belmont University is educating the next generation of practitioners, researchers, innovators, entrepreneurs and executives for the future health care marketplace, offering programs in nursing, public health, pharmacy, pre-health, exercise science and more. KNOWLEDGE EMPOWERS
In our ongoing commitment to financial literacy and wellness, Citizens Bank has made it a priority to provide free educational sessions to help students and families plan for college and learn about financial aid options.

Financial Aid Basics
Helping students and their families understand financial aid builds a foundation for success. Prepare for the FAFSA, and understand financial aid components like scholarships, grants, federal loans and financing any gap in unmet college costs.

Understanding Your Financial Aid Offer
Navigating the college financing process can be confusing. Begin by interpreting a financial aid offer, then review free aid resources and compare gap financing options.

Understanding Credit
Building and maintaining credit is critical to achieving financial wellness and keeping the cost of education down. Tips and resources are shared to help build, maintain and protect credit in order to successfully reach life goals.

Register for any of the sessions mentioned above by clicking here.

If your Chapter would like to schedule a Virtual Session

Essential resources for both students and teachers—perfect for both remote and on-site learning

Employment of healthcare occupations is projected to grow 18 percent from 2016 to 2026, much faster than the average for all occupations. Approximately 2.4 million new jobs will be added. Goodheart-Willcox can help turn students into skilled employees to meet this growing demand. For nearly 100 years, G-W has focused exclusively on providing affordable, high-quality instructional resources for Career and Technical Education. Let’s work together to build health science careers!

Together, We Build Careers
Nov 14-19

Explore Careers Confidently!

What is HPW2020?

HPW is your one-stop-shop to explore over 20 career options. All future health professionals are welcome to register for #HPW2020, including career changers, high school, college and graduate students, both domestic and international.

6 Days of Fun, Free Events:

- November 14 - Health Talks – Get inspired by these videos.
- November 15 - HPW Check-Ups – Get motivated watching these videos.
- November 16 - Virtual Treasure Hunt – Discover a career to treasure.
- November 17 - HPW Chat – SCORE with these tips on professionalism
- November 18 - Financial Literacy – Plan your financial path to education.
- November 19 - Virtual Fair – Visit each profession LIVE!

https://explorehealthcareers.org/hpw/  REGISTER TODAY!
Become an Ophthalmic Professional

Ophthalmology is the practice of medicine concerned with the anatomy, diseases, and treatments of the eye. There are many ophthalmology careers available to high school graduates and college students to become part of the eye care team. Allied Ophthalmic Personnel (AOP) are highly skilled professionals, who perform ophthalmic procedures under the direction of a licensed ophthalmologist (medical eye doctor). They work in varied medical workplace settings of all sizes, including private practices, medical centers, hospitals, and university clinics alongside ophthalmologists who provide medical and surgical treatment of eye conditions.

AOP work with patients of all ages and have a variety of responsibilities including:

1. Perform patients’ initial exam
2. Measure eye muscle movements
3. Gather data about patients’ health history
4. Administer eye medications
5. Assist ophthalmologists in surgical setting
6. Work with people who need spectacles or contact lenses
7. Perform tests for glaucoma, diabetic eye disease, retina, eye trauma, blindness, cataracts and more

There are two pathways to enter the ophthalmic career field:

1. Attend an accredited academic educational program. View the list of accredited training programs.
2. Begin working under the supervision of an ophthalmologist and learn the necessary skills through on-the-job experience. Then take an approved independent study course. View available job opportunities.

Choose the path that best fits your needs to begin your career in ophthalmology.

Certification

After completing training, allied ophthalmic personnel qualify to take the International Joint Commission on Allied Health Personnel in Ophthalmology’s (IJCAHPO) certification examination. Certification increases employment opportunities and earning potential, and demonstrates mastery of specific skills.

JOHNSON & WALES STUDENTS forge their own unique paths in health and wellness. Our truly interdisciplinary program brings together all of the resources of the university curriculum, giving flexibility to explore approaches to health and the healthcare industry.

After you learn the basic sciences that relate to health and wellness, you can explore courses in nutrition, exercise science, psychology, sociology, public health and economics to name a few, as you discover each subject’s importance to patient-centered, humanistic healthcare delivery.

The best part? JWU offers competitive pathway programs to set you up for success in fields like physician assistant studies, occupational therapy or addiction counseling. You can earn an advanced degree in less time and move ahead of the competition.

Thinking about medical school? You can fulfill pre-med requirements by expanding your JWU electives with courses such as human anatomy, physiology and immunology.

There are so many ways to explore JWU. Check out our visit options at jwu.edu/visit, where you can explore from home with virtual tours, connect with a local admissions representative and more!

Degree programs and delivery format vary by campus
Leaders in compassion.

The Lipscomb University School of Nursing prepares you to deliver quality, holistic patient care in Nashville, the nation’s health care capital, and beyond.

With an NCLEX pass rate of 98 percent in 2019, a BSN from Lipscomb’s School of Nursing includes both the clinical skills and the compassionate approach that empower you to successfully live out your calling. Become part of the foundation for any thriving health care system by learning to heal and nurture the mind, body and soul.
Mission matters.

The very heart of nursing is characterized by compassion, quality and leadership, and these are the pillars of our program. Thrive in a Christ-centered environment suited for academic success and character development. 100 percent of our graduates enter the workforce prepared to deliver exceptional care focused on the holistic needs of patients and their families.

Learn from the best.

Receive one-on-one attention from faculty who strive for your success. With a clinical student-to-faculty ratio of 6:1, you’ll have ample support in the settings that most practically prepare you for your future in nursing. Our expert faculty are not only trained practitioners, but also relational mentors who facilitate a caring, Christian community.

Gain real experience.

Lipscomb is home to the region’s best-equipped health simulation laboratory. With 28 patient simulators, 21 hospital beds and two treatment rooms modeled after ICUs, you’ll have unique opportunities to practice your skills through realistic clinical scenarios. Experience health conditions spanning an entire lifetime, from neonatal to end-of-life.

Outcomes

Opportunity awaits! Some of our practice locations for clinical experiences include:

- Vanderbilt University Medical Center
- Vanderbilt Children’s Hospital
- Healthcare Corporations of America (HCA) Facilities
- Specialty Clinics
- National Healthcare Corporation (NHC) Facilities
- Hospice

This school year, health science educators may face challenging times to deliver curriculum.

NCHSE is introducing a digital platform with the ability to make additions instantly to assist teachers with distance learning.

This technology infused instructional supplement equips teachers with extensive strategies to be successful in-person, online or with a hybrid model.

First developed in 2012, the Health Science Curriculum Enhancements are now designed with all new content outlines, PowerPoints, activities, projects, videos, websites, and test items.

Once purchased through our online store, teachers receive a link to download the content:

- National Health Science Standards complete alignment
- Printable and digital versions for a variety of class settings
- Multiple formats: Word/PDF/PPT
- Problem-solving collaborative activities
- Student-centered instruction with a teamwork emphasis
- Assessment items in Excel format, ready to upload to your favorite testing or review app
- Step-by-step video tutorials for resources navigation

For bulk pricing options, contact help@healthscienceconsortium.org

MindTap

MindTap is the online solution for CTE courses, including: a full, interactive eBook, annotation and study tools, video and simulations, certification prep, auto-graded assessment, data analytics, and more.

MindTap Learning Labs

MindTap Learning Labs allow students to practice the most difficult concepts associated with their textbooks in a simulated, real-world environment. Developed to improve program quality and retention, Learning Labs prepare students for their health careers by increasing comprehension, critical thinking, and soft skills.

MindTap Med Term Pronunciation App

The MindTap Pronunciation App allows students to record and receive instant feedback on their ability to pronounce key medical terms.

PREPHARMACY AT SAMFORD

Samford’s prepharmacy curriculum allows students to complete the required prerequisites within two years before entering pharmacy school. With our two prepharmacy fast-track options, it’s possible for students to apply and interview for Samford’s Doctor of Pharmacy program as a high school senior (early assurance fast track) or during their sophomore year of college (traditional fast track).

Learn more at samford.edu/go/prepharm.
At Shenandoah University, we support your goal of establishing a career in the health professions from your first day as an undergraduate. Our robust, cohort-based undergraduate Pre-Health Program prepares you for an array of graduate studies in the health professions, such as athletic training, dentistry, medicine, occupational therapy, pharmacy, physical therapy, physician assistant studies, public health and veterinary medicine.

We offer a variety of pathways to graduate studies in the health professions, including not only selective, early assurance pathway programs that carry you directly from undergraduate study into graduate programs, but also articulation agreements that guarantee a certain number of slots in our graduate programs for those with Shenandoah bachelor’s degrees.

For more information and a complete list of programs, please visit su.edu/academics/pre-health-program
Learn how to perform medical procedures with SimRated simulation-based training and assessment

SimRated Program

- Detailed reading material
- Online exam to reinforce key concepts
- Step-by-step instructional video with easy to follow checklists
- Practice on simulation equipment that mimic real life

Expert Clinician Feedback

- Students demonstrate competence by performing the procedure under testing conditions
- SimRated raters are expert clinicians who evaluate student performance and provide one-on-one feedback to your students

Smile Train is an international children’s charity with a sustainable approach to a single, solvable issue: cleft lip and palate.

**IT STARTS WITH A SMILE**

Smile Train’s sustainable “teach a man to fish” model enables local medical professionals to provide safe, timely, high-quality cleft treatment to children 365 days a year. We have always championed partnering directly with local hospitals to strengthen health systems and empower local medical professionals to offer surgical services and comprehensive cleft care to children in their own communities.

We know that the journey to living a healthy life for a child with a cleft starts with a smile, but that’s just the beginning. Smile Train-supported comprehensive cleft care includes nutrition programs, orthodontic care, speech therapy, and social and emotional support.

Supporting Smile Train gives a child access to a full range of cleft treatment services they would otherwise never receive and ultimately the opportunity for a better quality of life.

**OUR WORK**

- **1.5M+** Smile Train-supported cleft surgeries since 1999
- **90+** countries where Smile Train has helped children
- **2,100+** empowered medical professionals
- **Every 5 Minutes** Smile Train-supported cleft treatment helps a child in need
- **1,100+** partner hospitals
- **1 Goal:** To give every child with a cleft the opportunity for a healthy, productive life

Feik School of Pharmacy

The Feik School of Pharmacy (FSOP) is dedicated to providing pharmacy education and scholarship that advances the quality of healthcare practices in diverse populations. The Doctor of Pharmacy (PharmD) program focuses on a strong foundation in the basic pharmaceutical, administrative and clinical sciences using innovative technology, curricular integration, lifelong learning and critical thinking to provide high-quality, evidence-based pharmaceutical care with opportunities for multicultural and multilingual development.

Admissions

The process for admission to the fall class opens in July of the year prior to enrollment and concludes Feb 1 of the anticipated enrollment year. Applications must be submitted using the PharmCAS® online process. The Office of Student Affairs and the Admissions Committee review applications and consider academic background and grade point average, PCAT scores, and community service, work and leadership experience. The most competitive applicants are invited for an on-site interview.

PharmCAS applications must include the following:

- Official transcripts from all colleges and universities, undergraduate and graduate
- Two letters of recommendation
- Personal statement
- Official score reports from the Pharmacy College Admission Test (PCAT Code #104) *Optional

Did you know?

- Direct Admit program available for qualifying High School Seniors
- Only Faith-based Pharmacy School In TX
- Top 25% Pharmacy School In US for NAPLEX Pass Rate
- Top Graduator for Hispanic Pharmacists In US
- Best Pharmacy School In US for Earning Potential (GradReports)

Direct Admit Pharmacy Program

This is a program for students interested in a Pharm.D. terminal degree. Students must maintain specific requirements throughout two years of undergraduate study at UIW in order to guarantee an interview to the four-year professional pharmacy program. Successful candidates are exempt from taking the PCAT and are awarded a Scholarship.

Pre-Pharmacy
TWO-YEAR TRACK PROGRAM

OUR PROGRAM

The Pre-Pharmacy Track is a two-year program preparing students for admission into the Union University College of Pharmacy. Students interested in participating in the Pre-Pharmacy Track make this designation on their undergraduate application. Pre-Pharmacy Track students will be advised by College of Pharmacy staff.

Students must take a minimum of 14 credit hours per semester and follow the Pre-Pharmacy Track curriculum as outlined below. Students will complete the PharmCAS application.

Students may also participate in the Pharmacy Early Admission Program (PEAP) as part of the Pre-Pharmacy Track.*

Pre-Pharmacy

EARLY ADMISSION PROGRAM

PROGRAM BENEFITS

The purpose of the Pharmacy Early Admission Program is to recruit highly qualified students and to streamline their admission to the Doctor of Pharmacy (PharmD) program at Union University. While in PEAP, a student may follow the Two-Year Pre-Pharmacy track, or complete three or four years of undergraduate coursework.

PEAP GUARANTEES ADMISSION TO THE COLLEGE OF PHARMACY (COP), PENDING SUCCESSFUL ADHERENCE TO PROGRESSION CRITERIA AND A SUCCESSFUL ONSITE INTERVIEW.

- PEAP students with a GPA ≥3.0 are not required to pay the $1,000 deposit.
- PEAP students will be mentored by COP staff members.
- PEAP offers opportunities for social connections with other PEAP students, COP faculty, and COP students.
- Research opportunities may be available to qualified students.

PROGRESSION CRITERIA

To enter PEAP or maintain eligibility, students must

- Notify the COP of interest in PEAP upon admission to Union University or upon completion of qualifications for PEAP (if a current student or transfer student). This notification should be given to the COP admissions office no later than October 15. Registration with the COP is critical as space is limited for each admitted class.
- Maintain a cumulative GPA of ≥2.5.
- Achieve an ACT ≥22 or CLT ≥68 prior to matriculation into the COP.
- Complete all pharmacy prerequisites prior to matriculation into the COP with a grade of “C” or above in each course.
- Attend one announced COP event annually.
- Meet with pharmacy mentor each semester.
- Complete a minimum of 14 hours per semester (fall and spring) at Union University.

MATRICULATION

To matriculate into the College of Pharmacy via the PEAP, students must:

Complete the PharmCAS application by September 1 of the year prior to matriculation.

Participate in an onsite interview. The interview will be scheduled by the COP Office of Admissions once the application is complete.

TAKE THE PHARMACIST QUIZ!

What does a pharmacist do?

A) Develop drugs to fight COVID-19.
B) Administer life-saving drugs in the ER.
C) Design custom chemotherapy drugs.
D) Counsel patients on drug adherence.
E) Advocate for patient access to healthcare.
F) Help doctors determine the best medication for patients.
G) All of the above.

If you selected "G", you're right! Today's pharmacists are on the leading edge of drug discovery and patient care.

Chat with our Outreach Specialist to see if a pharmacy career is right for you:

Austin, TX  Dallas, TX  Miami, FL  San Marcos, CA  St. Augustine, FL
The UIW School of Osteopathic Medicine (UIWSOM) stands as one of the most diverse osteopathic medical schools in the nation. Located in San Antonio, Texas, UIWSOM is committed to social justice and community service.

**Direct Admit**

UIW offers a direct admit option for highly qualified first-time freshmen that leads to a Doctor of Osteopathic Medicine degree.

**Benefits include:**
- Merit-based Scholarships
- Medical College Admissions Test (MCAT) waived
- Direct Admit Academic Advisor to provide support in the transition to medical school
- Community service opportunities that focus on health education

**UIWSOM Academic Programs**

**Master of Biomedical Science (MBS)**

The MBS program is a 37-credit hour program designed to enhance the scientific knowledge of students who desire to pursue a professional degree in the biomedical sciences or in healthcare professions including medicine, dentistry, pharmacy, physical therapy and optometry.

**Doctor of Osteopathic Medicine (DO)**

DOs are fully licensed physicians who apply their distinct philosophy to patient care in every medical specialty. They are taught early on that optimal health is a dynamic interaction between the mind, body and spirit.

SAVE ONE PERSON POPULATION AT A TIME.

Public Health is bigger than people understand. We encompass many fields of work including medicine, journalism, nursing, biology, pharmacy, psychology, anthropology, law and other health professions.

Our values are built on evidence and fact-based research that is applied in practice—giving our students a more holistic view of health.

REAL WORLD PROBLEMS NEED REAL WORLD PROBLEM SOLVERS.

Webber International University is currently processing applicants for the Bachelor of Science in Occupational Therapy Assisting with a minor in Health Services Administration program (BSOTA with a minor in HSA).

Webber International University is seeking accreditation for the BSOTA with a minor in HSA program by the Accreditation Council for Occupational Therapy Education (ACOTE); PO Box 31220, Bethesda, MD 20824-1220; (301) 652-2682. The academic faculty and leadership at the university are in the process of collecting and compiling data to submit for accreditation. The accreditation process may take up to two years; however, completion of the accreditation process does not guarantee that the BSOTA with a minor in HSA program will be granted accreditation status.

Students must graduate from an ACOTE accredited university to be eligible to sit for the National Board for Certification in Occupational Therapy (NBCOT) exam which must be passed to obtain state licensure as an Occupational Therapy Assistant. Should the program not receive accreditation, graduates would not be able to sit for the NBCOT boards or obtain state licensure. If the program attains ACOTE accreditation status prior to graduation, graduates will be eligible to sit for the NBCOT® Certification exam immediately upon graduation from the BSOTA with a minor in HSA program.

Who Are Occupational Therapy Practitioners?

Occupational therapy practitioners are either occupational therapists or occupational therapy assistants. They are skilled health care professionals who use research and scientific evidence to ensure that their interventions are effective. With strong knowledge of a person’s psychological, physical, emotional, cognitive, and social makeup, occupational therapy practitioners can evaluate how your condition (or risk for one) is affecting your ability to participate in life and provide ways to overcome any barriers, using a holistic perspective. Occupational therapy practitioners are the only professionals who look at the relationships among the person, the environment, and the occupation to support health and well-being through everyday activities.

Where do Occupational Therapy Assistants work?

Occupational therapy practitioners work in a variety of settings; including schools, clinics, Head Start Programs, community centers, hospitals, nursing homes and private residences.
