

CERT SKILLS - Sample Skill Scenario

Scenario 2:

After triaging victims in the ballroom of Coronado Springs Resort, you and your partner next encounter A. Aristocat. The victim complains of right arm pain after a fall while trying to leave the site. You are to splint the injury.

Skills to be performed:

Skill V: Splinting a Closed Fracture

TIME: 5 MINUTES

Patient Script

You are A. Aristocat and are 18 years old. An alarm has sounded at Disney's Coronado Springs Resort during a preview showing of Toy Story 4. In the rush to exit the venue, panic ensued. You have a possible fracture of your right arm after a fall when trying to leave the site. You are alert and oriented and able to answer questions. Inform the team that you heard a snap at the time of the injury. You are to report that your pain level is a six out of 10 and that it increases with movement.

The competitors will be splinting your right arm.
