KEVIN PHALPHOUVONG

Incoming Freshman at the University of Wisconsin-Madison | 4th Year HOSA Member | Wisconsin HOSA

SUMMARY STATEMENT

What inspires HOSA's future health professionals? Over 250,000 HOSA members have different career paths in healthcare, but they have one thing that inspires them, the ability to motivate one another! I came into HOSA with an unsure passion for healthcare, but my motivation to succeed in HOSA came from the assistance of peers who provided resources/connections in my chapter, statewide, & internationally. My objective is to encourage others to promote HOSA in areas without chapters to bring this opportunity to a wider range of future health professionals.
