

Surgical Technologist- Sample Skill Scenario

Competitor Scenario 1:

You are working at the HOSA Celebration Hospital Operating Room. The surgical team is preparing for a laparoscopic appendectomy scheduled for 0730. Your patient is a 22-year-old male with acute appendicitis. The circulating nurse has already verified the surgical consent and checked the sterile supplies. The surgical team is ready to begin the procedure. You have completed your surgical scrub and are prepared to begin the gowning and gloving procedure.

Skill to be performed:

- Skill IV: Gowning and Gloving
- Time 5 Minutes
